MATERIAL SPECIFICATION

Solo series – individual devices that are a necessary addition to the main amenities of the playground. Games, didactic accessories, sandpits, little houses, wagons – elements that are incredibly appealing to children and are an unlimited source of fun, while at the same time inspire children's critical thinking and develop their motor and sensory as well as emotional and cognitive skills. Carefully chosen patterns, colors and details gain the approval of even the most demanding children.

- Galvanized and/or powder coated construction
- All screws covered with colorful plastic caps
- Colorful elements made out of atmospheric condition resistant HDPE polythene plates
- Installation connecting both phone receivers allowing for communication (installed underground)

ADDITIONAL COMMENTS

- The device is certified by an accrediting organization
- Embedded 75/65/55 cm deep in flat ground
- The device is designed for public playground
