

**swing 0510** SINGLE BABY MINISWING

| Device Specifications              |                     |
|------------------------------------|---------------------|
| Safety zone                        | 8,97 m <sup>2</sup> |
| Length                             | 0,35 m              |
| Width                              | 1,50 m              |
| Total height                       | 1,70 m              |
| Free fall height                   | 1,30 m              |
| Age range                          | 1-4 yrs             |
| In accordance w/ EN standards      | 1176-1:2009         |
| Availability of spare parts        | Yes                 |
| Weight of the heaviest part [kg]   | 12                  |
| Dimension of the biggest part [cm] | 225x8x8             |

Minimal space

**MATERIAL SPECIFICATION**

Swing series – a wide variety of swings that are extremely popular on playgrounds. Comfortable and safe seats designed for those as young as 1, as well as older children. Durable constructions that will bring the kids joy for a long time. These swings are not only fun; they also sooth the children and help them learn to maintain their balance.

- 80 x 80 mm galvanized and/or powder coated steel construction
- No sharp edges or chinks that would pose a danger for jamming of the head, fingers or any other body parts
- All screws covered with colorful plastic caps
- Safe rubber plug buttons topping the construction
- Stainless steel chain hooks
- Calibrated chain preventing fingers from getting stuck
- Durable certified seats

**ADDITIONAL COMMENTS**

- The device is certified by an accrediting organization
- Embedded 80/70/60 cm deep in flat ground
- The device is designed for public playgrounds

Due to the free fall height of the device, the EN 1176-1:2009 standard allows the following surfaces to cushion a fall. The level of granular materials requires filling in, conservation of synthetic materials is required in accordance with the manufacturer's instructions. Dimensions of the foundation are described in installation instruction.

| Material            | Description [mm]         | Minimal layer thickness [mm] | Dimensions foundation |
|---------------------|--------------------------|------------------------------|-----------------------|
| Tree bark           | Grain size from 20 to 80 | 300                          | A,C                   |
| Chip                | Grain size from 5 to 30  | 300                          | A,C                   |
| Sand                | Grain size from 0,2 to 2 | 300                          | A,C                   |
| Gravel              | Grain size from 2 to 8   | 300                          | A,C                   |
| Synthetic materials | Free fall approval ≥1300 |                              | A,B,C                 |
